DISCUSSION ITEMS

Rules and Investigative fund combining of fees this is a reoccurring item to remain on the agenda. Mark Downey discussed that there is no new information to provide on this.

Washington Accord Agreement- the Board is starting to get a lot of different standards for accreditation and need to decide what they will accept. Washington Accord is substantially equivalent to ABET. Currently, the Board's Statutes and Rules do not permit the Board to accept applications that are under the Washington Accord Agreement, so Statutes would need to be revisited. The issue that has arisen is whether or not Washington Accord differentiates their degrees as being "Technology" degrees or actual accredited degrees. Vince will contact ABET and determine whether or not technology degrees are differentiated.

Bader Hafeez Reinstatement- false statements were made on his application, but court documents show that all charges were dismissed.

Board Action: A motion was made and seconded to agree that his positive response should not impede his reinstatement- still need continuing education

Drnevich/Snead 5/0/0

Richard Loose- motion was made and seconded to allow withdrawal of his previously denied application

Sauer/Snead 5/0/0

Change in May Meeting- the meeting on May 15th conflicts with the Central Zone Meeting in Lincoln, Nebraska. Staff will confirm dates for May 13th.
